

Ozone Generator

PERFECT POOL is the most Energy Efficient water sanitization system available today.

The **PP-1 Ozone Generator** works through the pool skimmer and the same electrical system as the pump providing an extra layer of water purification to your pool. Ozone kills 99.99% of Bacteria, Viruses and Molds and is the most effective oxidizer in killing the pathogen Cryptosporidium and E-coli. It also reduces harmful chemicals promotes a healthy swimming environment and better water clarity.

Ozone is safe, effective and reliable. Ozone is a form of oxygen and it is produced naturally through sunlight and lightning. It is one of nature's most powerful Oxidizers and reacts two thousand times faster than chlorine.

Perfect Pool Ozone Generator
+ 100ft tube and diffuser

All Perfect Pool systems come with a One Year Limited Warranty

- Works with pool skimmer
- 75% reduction in chemical cost
- Helps balance your pH of your pool
- Helps maintain the total alkalinity levels
- Eliminates sun tan/body oil build up on tile lines
- Can be winterized for snow-belt locations
- One moving part - no long term maintenance
- Helps precipitate heavy metals in your water
- Operates for less than \$8.00 per month or 27 cents per day

PERFECT POOL is the only complete system that generates **100% effective ozone for pools**. Even the PP1 via the diffuser does not degrade the ozone, regardless of water flow or speed. The unique circulation of the PP2 and PP3 in-deck modules with the added filtration capability of the PP-3 make it is clear that Perfect Pool is REALLY independent of pool equipment. Perfect Pool is **THE ONLY SYSTEM THAT ASSURES THE OZONE IS 100% EFFECTIVE, AND IT IS RADICALLY DIFFERENT AND SUPERIOR TO THE WAY OZONE HAS TRADITIONALLY BEEN DONE IN POOLS FOR THE PAST 30 YEARS.** PERFECT POOL is the **#1 Choice** for **PURE, CLEAR COMFORT.**
